## DRAM

Process, Design, Production & Sales  
4th largest DRAM provider in the world

**NT\$ 56.95Billion**  
2022 Revenue

As a member of the **Formosa Plastics Group**, one of the largest conglomerates in Taiwan

## 20nm

Product offerings  
DDR3 / DDR4, LPDDR3 / LPDDR4/4X

## 10nm Self-development

- 1Anm: 8Gb DDR4 small volume production and DDR5 development on schedule
- 1Bnm: small volume production in 2023

## Commitment

### Our Vision

#### Best DRAM Partner for Smart World

Nanya strives to provide the best services and values to our customers and partners. Through the strategic alliances with customers and vendors, Nanya continues to strengthen product development and manufacturing to meet diversified demand, providing a full range of products and system solutions for our customers.

### Our missions

1. Keep generating profits. Pursue sustainable development.
2. Manage enterprise risks. Take precautionary measures.
3. Optimize employee-welfare. Share profits with employees.
4. Preserve eco-system. Care the earth.
5. Support local communities. Build a better society.

### Core Value

The four core values of Nanya are innovation, integrity, accountability, and efficiency. Innovation is the driving force behind the company's growth in technology and competitiveness. We treat customers, suppliers, and partners with integrity. Executives and employees are held accountable for meeting these company-wide goals with efficiency. Internalize these core values into organizations and employees. Collaborate with the stakeholders, including customers, suppliers, and partners, to create positive influences on the environment, society, and economy and move toward sustainability for a better planet.

Innovation

Integrity

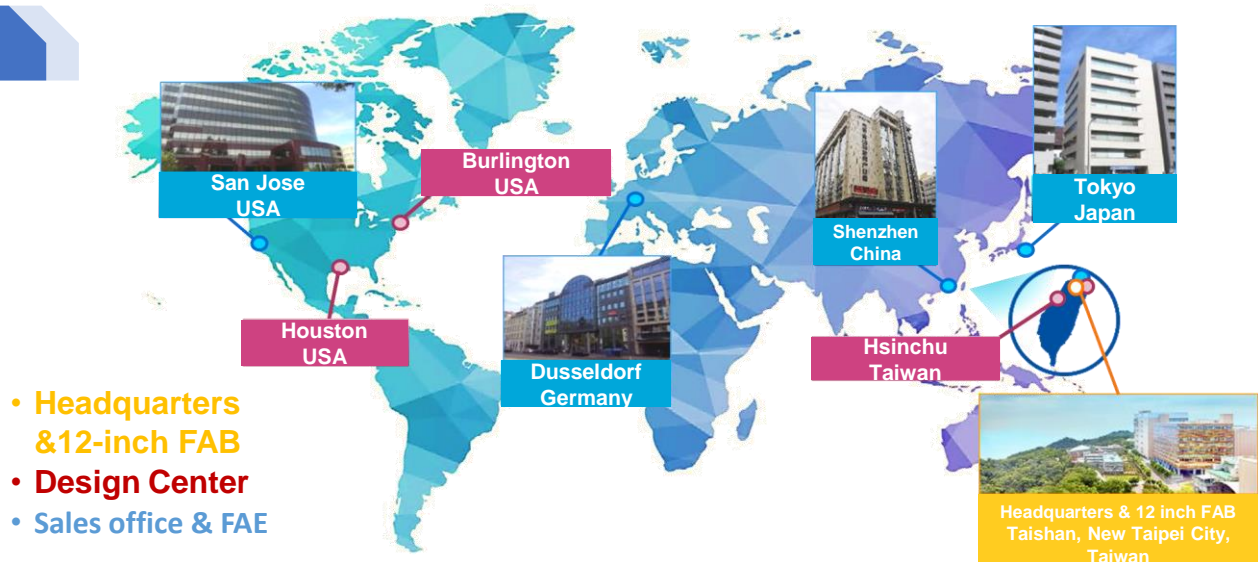

Accountability

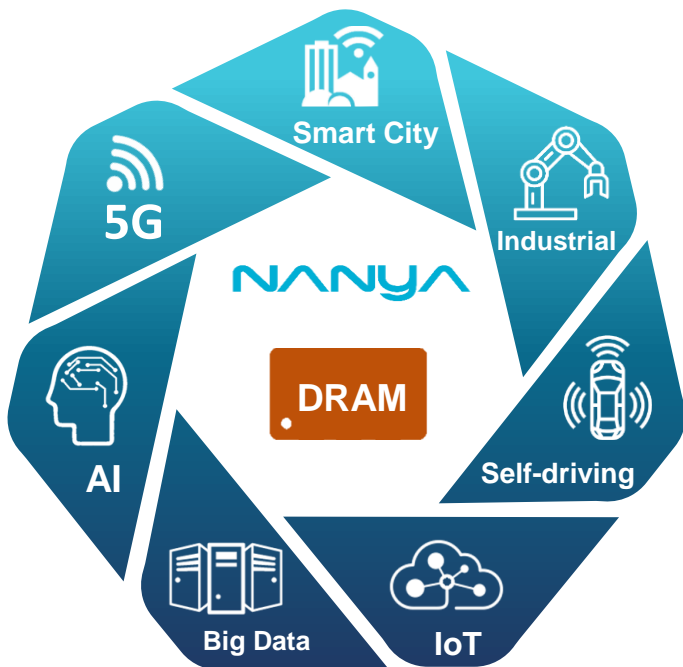

Efficiency

## Global Footprint

## As a Key DRAM Supplier

## Technology Development

30nm Joint Development

20nm Licensing

10nm Class Independent R&D

## Product Development (Independent R&D)

### New Product Design

- DDR4/LPDDR4/4X
- DDR5/LPDDR5
- Custom Products

### New Product Development

- Product Verification
- SiP (System in Package)
- Auto & Industrial

## Training and Development

A variety of education resources along with a comprehensive training and development (e.g. Professional & Continuing Education, Management Training Programs, Internal Instructor System) allow employees, including supervisors, to enhance professional skills and explore career plans.

We provide orientations and personal training reports for newcomers to understand our culture and environment, also to develop basic working skills.

Each department design professional development plans based on their core competencies through Structured On-the-Job training program for colleagues to absorb knowledge systematically and develop personal skills.

## Benefits

- Bonuses: personal performance incentive, year-end and holiday bonuses
